

WETZEL COUNTY LANDFILL
1521 WETZEL CO. LANDFILL ROAD
NEW MARTINSVILLE, WV 26155
(304) 455-3800

GUIDELINES FOR FREE DUMP DAY

We will operate under normal business hours on all free dump days, which are 6:00 am to 3:30 pm. The following is a copy of our facility's Free Day Policy.

- 1) Any person who is not a resident of West Virginia may only participate in the monthly free disposal day upon proof that his or her state of residence would likewise allow WV residents to dispose of residential solid waste in the same or substantially similar manner.
- 2) Landfill facilities must not give preferential treatment to either paying or nonpaying customers on free day. However, landfill facilities may place roll offs or other similar containers for use by free day customers in order to maintain normal daily operations.
- 3) Hours of operation on free day must consist of one full day and must be the same as hours of operation on other authorized days of the month.
- 4) Eligible free day participants are limited to one pickup truckload or its equivalent per free day. The maximum free disposal weight is 516 pounds. Standard rates will be applied to any weight over 516 pounds.
- 5) Only household appliances from which the refrigerant has been removed will be accepted. Only properly tagged appliances may be disposed of in the landfill.
- 6) Residential solid waste is not required to be bagged or bundled for acceptance by the landfill on free day. However, any and all residential solid waste must be secured in a manner to prevent windblown material, i.e. covered with a tarp.
- 7) Solid waste landfill facilities are not required to accept waste tires without charge on free day but may choose to accept waste tires and charge the fee established in 33CSR5 (paragraph 4.14c8). Whole non-commercial tires, upon approval, will be assessed a fee in order to cover cost of disposal by a third party.
- 8) Free day is only available to persons NOT in the business of hauling or disposing of solid waste. Such persons NOT in the business of hauling or disposing may dispose of, in a solid waste landfill facility, an amount of

residential solid waste up to 516 pounds per one (1) load per household or its equivalent, rates will be applied to any weight over 516 pounds.
