**SUBJECT: J. P. MASCARO & SONS AWARDED RECYCLING CONTRACT
VALUED AT \$260,000 BY ASTON TOWNSHIP**

Aston Township, Delaware County, awarded local waste service company, J. P. Mascaro & Sons, a thirteen-month contract with options for two additional years, to process and market all of the Township's commingled recyclables.

Starting in September, J.P. Mascaro will transport the recyclables to Mascaro's modern, fully-automated, 85,000 sq. ft. single stream recycling facility, TotalRecycle, in Exeter Township, Berks County. Once there, the recyclables will be processed and marketed for end-use.

Aston Township joins the growing list of municipalities whose recyclables are handled by Mascaro and processed at TotalRecycle. It is estimated that Aston Township will generate 1,400 tons of recyclables annually.

Opened in 2016, Mascaro's TotalRecycle facility has the latest single stream recycling automated technology that results in the "highest quality" of end-use recyclables for marketing.

The TotalRecycle facility is managed by Joseph P. Mascaro, the son of Mascaro company President, Pat Mascaro. Under his leadership, TotalRecycle has processed more than 400 million pounds of recyclables since its inception and is on pace to process over 200 million pounds in 2018 alone.

Speaking to his TotalRecycle facility operation, Joseph Mascaro said, "Our facility is one of the premier single stream recycling facilities in the Eastern United States, and we welcome the opportunity to process and market Aston Township's recyclables."

Founded and headquartered in Montgomery County, Pennsylvania, J. P. Mascaro & Sons, a privately-owned and family-operated company, is a fully-integrated waste service company and a leader in the industry.
